2020 GAS FX 64
\$350,000

Go Further. Stay Longer.

A life of unbound adventure is all yours with FX #64. Built on the famed Mitsubishi Fuso FE chassis, this FX comes equipped with a freshly serviced Vortec V8 gasoline engine with only 39,500 miles.

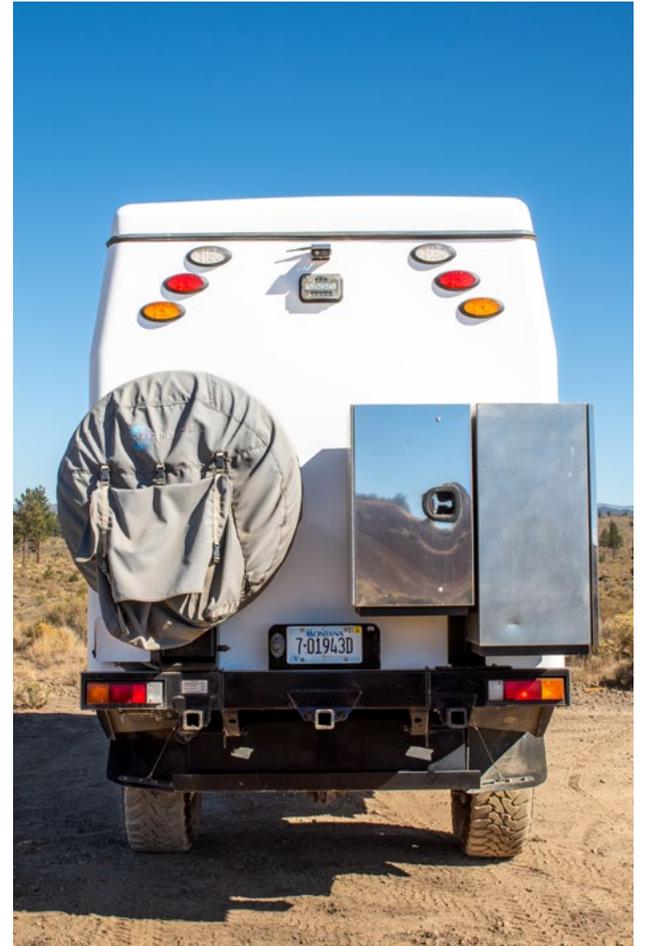

Behind the wheel you'll enjoy panoramic views and confident handling as you sit comfortably in custom-made Sheel Mann seats. With only a 132.5" wheelbase and cameras both forward and rear, this FX is well suited to easily navigate tight trails and crowded streets.

As you enter the house you'll be welcomed with our signature mud/bathroom featuring a full shower, small sink, and hidden composting toilet that maximizes space and keeps the rest of the house clean and organized. Further inside you'll be greeted with the galley offering a dual-burner electric cooktop, double sink, purified drinking water, ample drawer storage, and a large Isotherm fridge/freezer.

Relaxing after a long day is a breeze with the full-size RV bed in the rear and 4-person dinette at the front that doubles as a second bed. Hot and cold climates are easily enjoyed using either the on-board heater or air-conditioning inside the house that has been thermally tested to lock in the heat down to -22F.

With locking differentials, low-gearing, and meaty 37" Toyo MT tires on the ends of Dana 80 axles, FX 64 is built to endure the toughest terrain.

EC Installed Upgrades

Enhanced Sound Dampening
Safe In Center Console
Forward Facing Camera
Forward Receiving Hitch
Reading Lights In Cab
